

2019 Summer Camps

All of the summer learning opportunities listed in this resource are designed to promote the inclusion of all children, regardless of their ability level, allowing them to take flight and to soar to new heights.

If programs are specifically geared toward students with disabilities, that will be noted in the program description.

Summer Program opportunities often arise without a great amount of advance notice, but we do our best to include all of the summer opportunities of which we are aware.

We encourage you to contact your local YMCA, YWCA, Red Cross or Community Centers to determine all of the summer programs

Location: Flying Horse Farms
5260 State Route 95, Mt. Gilead, Ohio 43338

From helping children in wheelchairs participate in the high ropes course to heating the pool for those sensitive to temperature change, we've designed every detail of the camp experience to include all children and to foster a sense of pride, accomplishment, and freedom. Because campers spend much of their everyday lives in medical appointments and treatments, we deliberately shift the focus while they're here. Instead of asking campers to leave an activity to take their medication, we bring it to them – whether they're stringing beads or casting a line into the lake. Physicians and staff from Ohio's eight children's hospitals and Children's Hospital of Pittsburgh provide care and supervision to campers at our 24-7, WellNest. This state-of-the-art medical building is fully equipped to assist campers with their daily medical needs.
