College and Career Readiness initiatives and standards expect schools to prepare students for the world of work in the 21st century through our K-12 education system. Presenters from Spherion Mid Ohio and the Nisonger Center at the Ohio State University will provide strategies and curriculum tools for work and college readiness that teachers and curriculum directors can use to improve and enrich instruction.

Those interested are encouraged to "bring a colleague" to this training! Invite someone with a different role in college and career readiness than yourself. The goal is for these strategies to be used throughout your schools/districts for ALL students.

Registration is **FREE** and **REQUIRED**;
